

NewStarts Since 1994

United States and Canada

Definition

A NewStart is any ministry started with the intent of becoming a church.

*Categorized by cultural or language group These categorizations are not necessarily to be interpreted in strict fashion. Many of the churches represented below contain

members of more than one cultural/language group and are identified by the predominant group for simplicity's sake.

**"Multicultural" indicates a NewStart that is composed of one or more cultural/language groups and does not easily fit one categorization.

There are a total of 1,644 organized churches and NewStarts. Of these, 633 are organized churches and 1,011 are NewStarts.
